SUPPLIER QUALITY REQUIREMENTS

Revision K 5/2018

When specified on an Alloy Die Casting Purchase Order, the requirements, as stated herein, become a part of the purchase order issued by ALLOY DIE CASTING.

Failure to comply with these SQR'S could result in the rejection of and/or delay in payment for material supplied under the purchase order issued.

SUPPLIER QUALITY REQUIREMENTS

SQR-1 QUALITY SYSTEM REQUIREMENT

The supplier's quality system, as a minimum, must comply with ISO 9001 or equivalent standard.

SQR-2 RIGHT OF ACCESS

By acceptance of this purchase order, the subcontractor grants Alloy Die Casting, its customer, and regulatory authorities to the applicable areas of all facilities and to applicable documented information (e.g. documentation, records), at any level of the supply chain to insure conformance to contractual requirements. The supplier shall flow down this requirement to their sub-tiers.

SQR-3 PROCESS APPROVAL REQUIRED

The process specification(s) indicated on our purchase order requires prior approval of your facility by our customer. Notify our Purchasing Department immediately if you are not an approved supplier or if there has been a change in your approval status.

SQR-4 MANUFACTURING APPROVAL REQUIRED

The item(s) indicated on our purchase order requires prior manufacturing approval of your facility by our customer. Notify our Purchasing Department immediately if you are not an approved supplier or if there has been a change in your approval status.

SQR-5 INSPECTION REPORT REQUIRED

The supplier shall furnish a copy of the completed final acceptance dimensional inspection report, along with actual measurement data and Quality Control acceptance stamps/buyoff evidence, for each shipment of each item listed on this purchase order. This requirement applies to Alloy Die Casting suppliers and sub-tier suppliers to the extent necessary to determine acceptability of items under this Purchase Order.

If statistical sampling is used as the basis of exception, then the procedures shall be in accordance with industry accepted sampling plans.

SQR-6 CERTIFICATE OF CONFORMANCE REQUIRED

The supplier shall furnish a Certificate of Conformance (C of C) with each shipment of each item listed on this purchase order. As a minimum, the C of C shall include the following information:

- A) For suppliers of components produced from metallic raw materials as well as raw metals in any form:**
1. The Alloy Die Casting purchase order number.
 2. Part number and revision level.
 3. A reference to all applicable specifications as listed on P.O. or drawings.
 4. Quantity and U/M of items shipped.
 5. Name and address of manufacturer/processor.
 6. Date of Certification.
 7. The statement: "WE HEREBY CERTIFY THAT ALL MATERIALS FURNISHED CONFORM TO ALL DRAWINGS, SPECIFICATIONS, PROCESSES, AND/OR OTHER REQUIREMENTS AS STATED ON THE ABOVE REFERENCED PURCHASE ORDER." (Reasonable variations of this statement are acceptable as long as the content concurs.)
 8. The ORIGINAL signature of an authorized company representative.
- B) For suppliers performing or subcontracting manufacturing/inspection processes such as: plating, anodize, chemfilm, x-ray, penetrant, heat treat, welding, etc.:**
1. The Alloy Die Casting purchase order number.
 2. Part number and revision level.
 3. Quantity and U/M of parts shipped.
 4. Each process/test performed.
 5. Each process specification and revision level.
 6. For N.D.T.- each test specification and revision level.
 7. For N.D.T.- each test acceptance standard, revision level, and acceptance level.
 8. Process approval number if issued by a certifying agency.
 9. Name and address of process/test source (if subcontracted).
 10. Date of certification.
 11. The statement:"WE HEREBY CERTIFY THAT ALL MATERIALS FURNISHED CONFORM TO ALL SPECIFICATIONS, DRAWINGS, OR OTHER REQUIREMENTS AS STATED ON THE ABOVE REFERENCED PURCHASE ORDER." (Reasonable variations of this statement are acceptable as long as the content concurs.)
 12. The ORIGINAL signature of an authorized company representative.
- C) For suppliers that have processed or manufactured product from Alloy Die Casting supplied materials:**
1. The Alloy Die Casting purchase order number.
 2. Part number and revision level.
 3. Quantity and U/M of parts shipped.
 4. Name and address of manufacturer.
 5. Date of Certification.
 6. The statement: "WE HEREBY CERTIFY THAT ALL PRODUCTS FURNISHED UNDER THIS PURCHASE ORDER WERE MANUFACTURED FROM ALLOY DIE CASTING SUPPLIED MATERIAL." (Reasonable variations of this statement are acceptable as long as the material no. and batch/lot no. appear.)

7. MATERIAL NO: _____.
8. BATCH/LOT NO: _____.
9. The ORIGINAL signature of an authorized company representative.

SQR-7 ADC PART NUMBER & REV ON C of C

The supplier shall include on the (C of C) certificate of conformance the ADC part number and Revision.

SQR-8 MANDATORY ALLOY DIE CASTING APPROVAL OF SUPPLIER CHANGES

Supplier agrees not to make changes in products or design details which would affect the part or any component hereof without prior written Alloy Die Casting approval. Furthermore, the supplier agrees to notify Alloy Die Casting of changes in processes, or services including changes of external providers (suppliers) or location of manufacturer, and obtain Alloy Die Casting approval prior to implementing the change.

SQR-9 SPECIAL PROCESS APPROVAL

Special process suppliers are responsible for compliance to the applicable specifications, including customer special process approval, whether the operation is performed within their facility or flowed down per the supplier's PO to the supplier's subcontractor.

SQR-10 SUPPLIER FLOW DOWN OF REQUIREMENTS TO SUB-TIER

The supplier shall flow down customer requirements and the requirements specified in this PO, including key characteristics, and this document to external providers (including sub-tier suppliers) utilized to fulfill this order.

SQR-11 REPORT OF NONCONFORMING PRODUCT/PROCESS/SERVICE

The supplier shall document and notify Alloy Die Casting of nonconforming processes, products, or services and obtain approval for their disposition prior to product shipment from supplier's facility. A copy of the disposition document shall accompany each affected shipment.

No deviation will be considered approved without written confirmation of that fact from Alloy Die Casting.

SQR-12 SUBCONTRACTING WORK

The supplier is prohibited from subcontracting any portion of the work to be performed in the performance of this contract, without written buyer authorization.

SQR-13 RECORDS

The supplier shall retain in a safe place the manufacturing plan, all certifications, test reports and any records required to assure that products, processes and/or services conform to the contractual and technical requirements of the PO for a minimum of eleven (11) years (unless otherwise stated in the PO). The records should be available when requested by Alloy Die Casting and/or its customers.

Alloy Die Casting disposition policy is as follows:

- Hardcopy records are shredded.
- Electronic records are deleted.

SQR-14 GOVERNMENT SOURCE INSPECTION REQUIRED

When applicable, government source inspection is required prior to shipment from supplier's plant. Upon receipt of this purchase order, promptly furnish a copy to the Government Quality Representative that normally services your facility; or if there is none, to the nearest U.S. Army, Air Force, or Defense Supply Agency Inspection Office. In the event that one of the above mentioned agencies cannot be located in your area, contact the Alloy Die Casting Purchasing Department for instructions.

SQR-15 CUSTOMER SOURCE INSPECTION REQUIRED

Upon completion of the order and prior to shipment, notify Alloy Die Casting's Purchasing Department so that arrangements can be made for a Customer Quality Source Inspector to visit your facility and perform a source inspection.

SQR-16 ALLOY DIE CASTING SOURCE INSPECTION REQUIRED

Upon completion of the order and prior to shipment, notify Alloy Die Casting's Purchasing Department so that arrangements can be made for a Quality Representative from Alloy Die Casting to visit your facility and perform a source inspection.

SQR-17 FIRST ARTICLE APPROVAL REQUIRED

A written acceptance by Alloy Die Casting Corporation of the first article produced or processed against this purchase order is required. The supplier must furnish to Alloy Die Casting a first article ITEM for approval, along with a completed first article inspection dimensional acceptance report and all necessary verifiable certifications and test reports required by this purchase order – prior to the commencement of any further production.

SQR-18 CHEMICAL AND PHYSICAL TEST REPORTS REQUIRED

The supplier shall furnish a copy of a certified test report with each shipment for each item listed on this purchase order. As a minimum, the test report shall include the following information:

For suppliers of components produced from metallic raw materials or raw metal material in any form, one of the following test reports shall accompany the shipment:

1. A certified copy of the actual producing mill's test report, or
2. A certified copy of an accredited laboratory's test report, or
3. A certified copy of the distributor's test report. These test reports must contain the following:
 - The name of the producing mill.
 - The material specification and revision level.
 - The raw material heat/lot number.
 - The actual quantitative results of all lot acceptance testing as required by the raw material specification (i.e. – chemical, physical, and metallurgical).
 - The ORIGINAL signature of an authorized mill, laboratory, or distributor representative.

NOTE: Unless specified otherwise on the P.O., typical test values are acceptable for all aluminum and copper alloys IAW AMS 4291 current revision.

NOTE: In addition to the above, some type of traceability is required to be maintained between our purchase order, the supplier C of C, and the material test report.

SQR-19 ALLOY DIE CASTING FURNISHED MATERIALS

Items manufactured under this purchase order agreement shall be fabricated from Alloy Die Casting furnished material intended for the completion of this order only. The supplier shall not substitute, rework, or dispose of Alloy Die Casting furnished material in any way, except as allowed for or instructed to do so in writing. Unused material must remain properly identified and returned with the last shipment of fabricated parts, unless instructed otherwise. (Also see C of C requirement SQR-6C).

SQR-20 DOMESTIC MATERIAL REQUIREMENT & CONFLICT MINERALS

All material used for fulfilling this purchase order must be from domestic stock and wholly manufactured and processed within the borders of the UNITED STATES OF AMERICA. The BUY AMERICAN ACT, FAR 52.225-3, dated January 1989 (In accordance with FAR 25.109[d]), applies.

The “Dodd Frank Act” 2010, prohibits the purchasing of materials determined by the US Secretary of State to be financing the conflict in the DRC and adjoining countries. In compliance, ADC fully supports this act and will not purchase material and parts which violates its intent. In addition ADC purchasing flows this requirement to appropriate suppliers.

SQR-21 CALIBRATION

The supplier shall provide and maintain a calibration system that meets at least one of the following requirements, as currently amended, in the performance of this contract.

- MIL-STD-45662A “Calibration System Requirements”
- ISO 10012-1 “Quality Assurance Requirements for Measuring Equipment”
- ANSI/NCSL Z540-1 “American National standard for Calibration”

SQR-22 ITAR RESTRICTED USE

The supplier shall adhere to the ITAR compliance requirements for performing work or service involving ITAR compliance. In accordance with ITAR 22 C.F.R. 120-130 International Traffic in Arms Regulation, all documents identified as ITAR controlled shall be identified, maintained in Document Control and segregated from non-ITAR documents. Documents identified as ITAR controlled shall be viewed only by a U.S. PERSON. A U.S. PERSON means an entity that is: a U.S. Citizen or a Legal Resident, or U.S. organization incorporated to do business in the United States.

SQR-23 FOD (Foreign Object Debris)

Supplier shall ensure that proper measures are taken to prevent contamination, corrosion, damage, deterioration and invasion of foreign objects into the deliverable products.

SQR-24 TOOLMAKER

Will build tool using ADC supplied tooling layout, approved supplied model and customer drawing.

SQR-25 TOOLMAKER

Will supply weekly progress reports similar to ADC supplied sample.

- a. Any delays over one week will require a written explanation.
- b. Any delays over two weeks will require a written explanation and a recovery plan.
- c. If “a” & “b” are not complied with your final payment will be delayed.

SQR-26 TOOLMAKER

Will build tool in accordance with ADC tooling standards as described in the “Tool Design Check List” ADC will supply check list at time the P.O. is issued.

- a. ADC requires the Toolmaker to complete their portion of “Tool Design Check List” at the time of delivery of the tool. This must be given to ADC Engineering Dept before the delivery payment can be made.

SQR-27 TOOLMAKER

Will supply a copy of all drawings, electronic files for cores, cavities and inserts that were created for purposes of building this tooling prior to payment being made.

SQR-28 COMPLIANCE WITH ETHICS LAW

Supplier, and any Products supplied by the Supplier, shall comply with all applicable laws, including rules, regulations, orders, conventions, ordinances and standards that relate to the manufacture, labeling, transport, import, export, licensing, approval or certification of Products, including laws relating to environmental matters, hiring, wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health or safety and motor vehicle safety, NAFTA and any other similar trade agreements. The Order incorporates by reference all clauses required by these laws. All materials used by Supplier in the Products or Services in their manufacture will satisfy current governmental and safety constraints on restricted, toxic and hazardous materials, as well as environmental, electrical and electromagnetic considerations that apply to the country of manufacture, sale or destination. At ADC’s request, Supplier shall certify in writing its compliance and/or willingness to cooperate with any or all of the foregoing. Supplier represents that any Products or Services purchased by ADC under a Purchase Order will not be produced with forced labor either by Supplier or Supplier’s Sub-tire Supplier. Supplier shall indemnify ADC against any liability ADC may incur if this representation is incorrect and ADC has the right to terminate a Purchase Order if there is a breach thereof.

SQR-29 REVISION CONTROL

Drawings, technical data, specifications and standards (including government and industry related specifications and standards), and reference document revisions in effect at time of order placement apply, unless otherwise specified on the purchase order.

SQR-30 SAFETY DATA SHEET

Safety Data Sheet (SDS) are required with shipment of chemicals.

SQR-31 CUSTOMER COMMUNICATION

If some Alloy Die Casting requirements cannot be met or can only partially be met, the supplier shall negotiate a mutually acceptable requirement with Alloy Die Casting.

The supplier shall acknowledge the order to the customer and shall maintain ongoing communication with Alloy Die Casting and provide an update with regards to the order status and issues (e.g., delays, nonconformities).

SQR-32 SUPPLIER PERFORMANCE

Alloy Die Casting monitors the quality and delivery performance of suppliers. If the supplier does not meet defined purchasing requirements (quality and/or delivery), Alloy Die Casting assesses the supplier's situation. Depending on the risk of using the supplier and its impact, Supply Chain and/or Quality may consider the following, as applicable:

- Coordinating with the supplier to correct the issue;
- Providing recovery plan(s);
- Issuing a formal corrective action request based on the severity of the issue;
- Scheduling onsite visit, evaluation, and/or audit.

SQR-33 COMPETENCE REQUIREMENTS

Supplier personnel performing work for Alloy Die Casting shall be trained or otherwise qualified and competent to perform work assigned to them, and shall retain applicable records.

SQR-34 CONTROL OF SUSPECT OR COUNTERFEIT PRODUCT

Supplier shall establish a program to eliminate the risk of introducing non-electronic parts and materials. This includes:

- Identification, mitigation, detection, and avoidance techniques, and reporting of suspect or confirmed counterfeit parts, assemblies, and/or materials;
- Training for the detection and prevention of counterfeit parts.

SQR-35 EMPLOYEE AWARENESS AND TRAINING

Suppliers shall ensure that their employees are aware of:

- their contribution to product or service conformity;
- their contribution to product safety;

- the importance of ethical behavior.

SQR-36 OBSOLESCENCE

Supplier shall be aware of obsolescence issues. The supplier shall provide immediate notification to Alloy Die Casting buyer and impacted personnel, describing the obsolete item, reason for obsolescence, estimated date the product will no longer be available, and any proposed alternatives. Timely notification is imperative to allow sufficient time to identify alternates for the affected parts, and perform any necessary certifications, which may involve regulatory agencies.
